sharpsafe

5th Generation Product Data Sheet

POCKET RANGE · MID RANGE · LARGE RANGE

450mm
335mm
230mm

24L

Product Code:

5120XXXX

Please note the last four digits denote the specific aperture type and lid colour.

Our Sharpsafe containers are specifically designed to enable the safe disposal of clinical sharps and minimise the risk of associated injuries.

Our 24L container is designed for high volume areas, such as A&E, wards and phlebotomy clinics. The wide horizontal aperture allows for the safe disposal of larger sharps equipment, surgical and laparoscopic instruments.

Available with different colour lids for easily identifiable waste segregation. Products come with a range of compatible accessories for increased stability, security and safety.

Sharpsafe's new 5th Generation containers launched in 2022 and were the world's first full range of sustainable single use sharps containers. Engineered using ultra low carbon footprint recycled material showing our commitment to championing change.
