sharpsafe

5th Generation
Product Data Sheet

POCKET RANGE · MID RANGE · LARGE RANGE

125mm (W) · 220mm (H) · 114mm (D)

1.8L

Product Code:

5050-2430

Please note the last four digits denote the specific aperture type and lid colour.

Our Sharpsafe containers are specifically designed to enable the safe disposal of clinical sharps and minimise the risk of associated injuries.

Our 1.8L is designed specifically for the disposal of needle pens. Each container is able to hold approximately 20* pens vertically, maximising the capacity of the container and preventing the need for larger containers where space is limited.

Ideally suited for home use.

Available with different colour lids for easily identifiable waste segregation. Products come with a range of compatible accessories for increased stability, security and safety.

*Based on a standard needle pen width of 17mm

Sharpsafe's 5th Generation containers launched in 2022 and were the world's first full range of sustainable single use sharps containers. Engineered using low carbon footprint recycled material showing our commitment to championing change.
